IT Rivestimento decorativo minerale per interni

Sintesi perfetta della rinascita, Fenice interpreta il mondo classico in chiave moderna; è tradizione nel presente. È l'araba fenice che ispira questo decorativo, quale simbolo della capacità di rinascere, di rinnovarsi, di evolversi. Porta con sé la storia di Venezia, a cui è fortemente legato, raccontando l'armonia palladiana. L'elevata versatilità è uno degli aspetti più marcati del suo carattere: a seconda della modalità in cui viene applicato, cambia, lasciando libera interpretazione a chi lo sceglie. Si adatta bene a diversi tipi di ambienti, prendendone parte discretamente, ma con decisione. Lì dov'è, risalta. Fenice prende vita dall'incontro di due universi che coesistono armoniosamente in un decorativo completamente made in Italy.

EN Decorative mineral coating for interiors

A perfect example of rebirth Fenice (phoenix) interprets the classical world in a modern way. Tradition in the present. It is the Arab phoenix that inspires this decorative product, as a symbol of the ability to be reborn, to renew, and to evolve. Bringing with it the history of Venice, to which it is strongly attached, recounting the story of Palladio's harmony. Versatility is what marks this product as it changes depending on how it is applied, allowing free interpretation to those who choose it. It adapts well to different types of environments, in which it takes part discreetly yet decisively. Where it is, it stands out. Fenice stems from the meeting of two worlds which coexist in harmony in an all-Italian-made decorative product.

FR Revêtement décoratif minéral pour intérieur

Synthèse parfaite de la renaissance, Fenice est une relecture moderne du monde classique ; c'est la tradition dans le temps présent. Le phénix inspire ce décoratif, comme symbole du pouvoir de naître, de se renouveler, d'évoluer. Il contient toute l'histoire de Venise, à laquelle il est fortement lié et dont il raconte l'harmonie palladienne. La grande polyvalence de Fenice est l'un des aspects les plus forts de son caractère: selon la façon dont il est appliqué, il se modifie, laissant la plus grande liberté d'interprétation à ceux qui le choisissent. Il s'adapte bien à de nombreux types d'ambiances, dans lesquels il joue un rôle majeur, avec discrétion. Partout où il se trouve, on le remarque. Fenice naît de la rencontre de deux univers qui coexistent harmonieusement dans ce décoratif entièrement Made in Italy.

RU ДЕКОРАТИВНАЯ МИНЕРАЛЬНАЯ ОТДЕЛКА ДЛЯ ВНУТРЕННИХ РАБОТ

Идеальный синтез возрождения, Fenice интерпретирует классический мир на современный лад; это традиция в настоящем. Вдохновением для создания этого декоративного покрытия стал именно Феникс из Аравии, как символ возрождения, обновления, развития. Он рассказывает историю Венеции, с которой тесно связан, передавая палладианскую гармонию. Отличительной особенностью природы покрытия является его универсальность: оно изменяется в зависимости от способа применения, предоставляя свободу интерпретации тем, кто его выбирает. Средство хорошо подходит к различным типам интерьеров, становясь его сдержанным, но решительным участником. Оно всегда выделяется. Fenice оживает от встречи двух вселенных, которые гармонично сосуществуют в декоративном покрытии, полностью сделанном в Италии.
